Website: [www.mvpsoygaoncollege.ac.in](http://www.mvpsoygaoncollege.ac.in)

**7.2: Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual**

### Best Practice

#### Title : **1 Tree Plantation**

##### 1} Objectives: -

1. To save the endangered environment and to beautify our life.
2. To know the value of environment.
3. To know the benefits of tree.
4. To combat many environmental issues like deforestation, erosion of soil, desertification in semi-arid areas, global warming and hence enhancing the beauty and balance of the environment.
5. It helps to maintain an eco-friendly environment around the whole world and reduces air pollution and improves the greenery.

##### 2} The Context: -

- 1. Ecology:** - The establishment of forest plantation involves extensive alteration of the ecosystem particularly when heavy equipment is employed.
- 2. Land:** - Soil structure influences plant growth by affecting the moment of water, air and nutrients to plants. Sandy soils have little or no structure but are often free draining. With higher clay contents the soil structural strength increases, but its drainage ability often decreases.

**3. Species Selection:** - The ecological conditions of the site and the ecological requirements of the species should be compared, if these are similar, then the species are recommended for plantation in the site. These factors also help in the selection of species for the plantation. These factors include rainfall, humidity, a temperature, etc.

**4. Inadequate supply of quality planting material:** - Processing Plants, lacking of Fertilizers and Water, Inadequate Iron net for per Plant, etc.

**5. Finance and private involvement:** - the Finance by SPPU specially under NSS, involvement of LMC Members and College Staff along with Students.

**6. Irrigation:** - The College has Carried out irrigation system for all planted trees in the college campus. Estimated cost of irrigation is Rs. 67000/-

#### **4} Problems encountered and Solution: -**

1. Lack of Water

**Solution:** - The college carried out **Drip Irrigation System** to fulfill the thirst of plants

2. Lack of mineral recycling and nutrients: - Trees in our landscape frequently suffer from a lack of nutrients.

**Solution:** - Use organic fertilizers to increase nutrition of the soil.

3. Compacted Soils: - In our yards, trees often grow in compacted soil.

- Our yard is our backyard getaway. We run, play, walk, and enjoy our yard constantly.

- All that foot traffic, along with lawn mowers and construction projects, creates soil compaction. Plus, major soil compaction occurred when your house was built, so if your home is newer; it's likely you'll see this problem.

- Compacted soil leads to stressed soil, crushed root, and restricted root growth.

**Solution:** - Loosen the soil to reduce compaction and stress on trees.

- Vertical mulching replaces soil in the root zone.

- Mix in organic matter to amend compacted soil.

**Solution:** - Spot and treat tree pests and diseases early. Also, help relieve trees stress by following solution

- Monitor trees for pests often.

4. Mechanical and Natural Damage: -

- Lawn equipment and animals can damage our trees.

- Animals like cow, goat and dog can do a number on your shrubs and trees.

- Plus, as we use lawn mowers and string trimmers, we can accidentally hurt tree trunks.

- When wounded by lawn equipment or hungry animals, these injuries interrupt trees, spread of water and nutrients.

**Solution:** - Check your trees regularly while prioritizing your trees, long-term health.

- Inspect regularly to spot serious problems earlier.
  - Boost your trees, health by mulching, fertilizing and watering.
  - Mix in organic matter to amend compacted soil.
5. Restricted Root Space: - As trees grow, their expansive roots run into obstacles.
- When we plant those tiny tree samplings, they seemed far enough from the road.
  - As trees grow, roots often spread well beyond the edges of its canopy.
  - Then, they begin to run into barriers, such as buildings, roads and sidewalks that limit root growth.

**Solution:** - Remedy the soil, give trees the essential. Spot problem roots.

- Improve soil health.
- Properly fees your tree, when necessary, water your tree during dry spells and drought.
- See girdling roots, which grow around another root or trunk? Those restrict water and nutrients while weakening branches. Ask your arborist what you can do to fix them.

# 2 Best Practice

## Blood Donation

### 1} Objectives: -

1. Imparting knowledge regarding the importance of unpaid, voluntary blood donation.
2. Raising awareness of the necessity of safe transfusion of blood and its components.
3. Motivating and encouraging people who are not interested in donating blood in spite of being a healthy person.
4. Encouraging youth to donate blood and inspiring others to do the same.
5. Thanking blood donors for frequent unpaid donations.

### 2} The Context: -

Barriers to whole blood donation include having prior negative experience with donation and donation related fear. Why do girls don't donate blood?

→ Low body weight, lack of time for blood donation due to a busy lifestyle, difficulties to access the donation site, fear of needles, fainting, disease transmission, weakness and even infertility were all considered as other potential deterrents to blood donation.

### 3} Evidence of success: -

जा. क्र. : परिपत्रक ५३८३ /२०१७-१८

दि.१६/०८/२०१७

प्रति,

मराठा विद्या प्रसारक समाज संचलित,  
सर्व वरिष्ठ महाविद्यालय शाखा प्रमुख यांसी,

महोदय,

आपणास कळविण्यात येते की, दिनांक २९ ऑगस्ट हा दिवस केंद्र सरकारने "राष्ट्रीय क्रीडा दिन" म्हणून घोषित केलेला आहे हे आपणास विदित असेलच. राष्ट्रीय क्रीडा दिनाच्या औचित्याने गत चार वर्षांपासून संस्था २९ ऑगस्ट हा दिवस MVP Athletes Blood Donation Day म्हणून साजरा करित आहे.

सदर दिनी क्रीडा विविध क्रीडाविषयक, सामाजिक उपक्रम, चर्चासत्र, परिसंवाद तसेच नागरिकांमध्ये व्यायामाचे, आरोग्याचे महत्व जागविण्यासाठी विविध उपक्रम राबवावे असे आवाहन महाराष्ट्र शासनाच्या वतीने करण्यात आले आहे, त्या अनुषंगाने संस्थेच्या वतीने मंगळवार दिनांक २९ ऑगस्ट २०१७ रोजी डॉ. वसंतराव पवार वैद्यकीय महाविद्यालय, रूग्णालय व संशोधन केंद्र आडगांव, नाशिक येथे रक्तदान शिबीराचे आयोजन करण्यात आले आहे. सदर रक्तदान शिबीराच्या यशस्वितेसाठी आपल्या महाविद्यालयातील किमान १२ विद्यार्थ्यांना पाठवावे.

(श्रीमती निलीमा वसंतराव पवार)

सरचिटणीस

मराठा विद्या प्रसारक समाज, नाशिक.

### सूचना

१. रक्तदान शिबीर डॉ. वसंतराव पवार वैद्यकीय महाविद्यालय, रूग्णालय व संशोधन केंद्र, आडगांव, नाशिक येथील अश्विनी हॉल महाविद्यालय मुख्य इमारत मध्ये आयोजित करण्यात आले आहे.
२. आपल्या महाविद्यालयातील विद्यार्थ्यांनी संघव्यवस्थापकासह सकाळी ठिक ०९.३० वाजेपर्यंत मध्यवर्ती कार्यालय, नाशिक या ठिकाणी उपस्थिती द्यावी. (शिबिरस्थळी जाण्यासाठी बसेसची व्यवस्था करण्यात आली आहे.)
३. ओझर, पिंपळगांव, सटाणा, चांदवड इ. भागातील संघांनी आडगांव येथे उतरून शिबीरस्थळी ९.०० वाजेपर्यंत यावे.
४. सोबत असलेल्या फॉर्म प्रमाणे विद्यार्थ्यांची व महाविद्यालयाची माहिती पुर्ण असावी. सदर माहिती रजिष्ट्रेशन काऊंटरवर जमा करावी. (कव्हरिंग लेटर अॅड्रेस-टु अधिष्ठाता, डॉ. वसंतराव पवार वैद्यकीय महाविद्यालय व संशोधन केंद्र आडगांव)
५. विद्यार्थ्यांचे वय १८ वर्षापेक्षा जास्त व वजन ४५ किलोपेक्षा जास्त असावे.
६. रक्तदानास येतांना विद्यार्थ्यांना नाष्टा/जेवण करून येण्यास सांगावे. जेणेकरून विद्यार्थ्यांना रक्तदान करतांना शारीरिक त्रास होणार नाही.
७. विद्यार्थ्यांसमवेत एक जबाबदार संघ व्यवस्थापक असावा.
८. रक्तदान करणाऱ्या विद्यार्थ्यांना संस्थेच्या वतीने प्रमाणपत्र दिले जातील तसेच जेवणाची व्यवस्था देखील करण्यात आलेली आहे.
९. विद्यार्थ्यांचा गणवेश हा आपल्या महाविद्यालयाच्या नाम्मोलेख असलेला टी शर्ट, ट्रॅकसुट, अप्पर इ. स्वरूपाचा असणे गरजेचे आहे.
१०. रक्तदान लवकर करून घेण्यासाठी कुठल्याही प्रकारची घाई करू नये.
११. सोबत असलेल्या फॉर्ममध्ये आपल्या महाविद्यालयाच्या विद्यार्थ्यांची माहिती भरणे सक्तीचे आहे.
१२. जास्तीत जास्त रक्तदान संकलन करणाऱ्या ३ महाविद्यालयांना मॅरिथॉन बक्षिस वितरण कार्यक्रमात गौरविण्यात येईल.

#### 4} Problems encountered and Solution: -

1. Fear of needle.

**Solution:** - Many individuals who donate blood experience dizziness, weakness, lightheadedness, or in severe cases, fainting.

Preventing these reactions may be an effective way to encourage subsequent blood donation.

- What are the advantages and dis-advantages of blood donation?  
→ It may also provide antibodies to help fight a disease, such as COVID-19, giving blood can be a lifesaving action, but it may also have benefits for the donor.
- Temporary Reactions
  - 1. Weakness
  - 2. Dizziness
  - 3. Feeling faint
  - 4. Lightheadedness
  - 5. Nausea
  - 6. Bleeding from the needle prick
  - 7. Bleeding under the skin or bruising.
- Does blood donation affect stamina?  
→ It depends upon you and the sport. For extreme endurance sports, such as distance running or cross-country skiing, it may take a month or more to regain full aerobic capacity after donating blood. For many other sports you may only notice a difference for a week or two after you donate blood.
- 08 Health benefits of donating blood.
  - 1. May reveal health problems.
  - 2. Prevents hemochromatosis.
  - 3. Maintain cardiovascular health.
  - 4. May reduce the risk of developing cancer.
  - 5. Stimulates blood cell production.
  - 6. Maintains health liver.
  - 7. Weight loss.
  - 8. Help improve your mental state.

These above-mentioned benefits of blood donation have been guided by sport teacher and visiting doctors time to time.

#### 4} Problem Encountered and Solution: -

- Weight should not be less than 45 kgs most of girl's students they don't have that much weight.
- Blood pressure should be within normal limits for the age group some time blood pressure may be low or high.
- Some time students have low Pulse and high temperature should not be permitted.
- Haemoglobin should be not less than 12.5 grams most of girls don't have that much haemoglobin so they rejected for blood donation.
- There should not have been any acupuncture treatment in the last 1 year so such case so they rejected for blood donation.
- No tattoos should have been done anywhere on the body for 1 year so such case so they rejected for blood donation.
- The donor must not have thalassemia or similar conditions so such case so they rejected for blood donation.
- The donor should not suffer from any bleeding disorder or be on steroids so such case so they rejected for blood donation.
- Various medications may prevent a person from donating blood.
